

SPIROL®

Contact SPIROL

Since 1948!

SPIROL is a technical resource that provides high quality components that improve the quality of your assembly, extend the life of your products and reduce your manufacturing costs.

Since the invention of the Coiled Spring Pin in 1948, SPIROL continues to introduce new products and improve existing ones. Their diverse product line includes Coiled and Slotted Spring Pins, Solid Pins, Disc Springs, Alignment Dowels and Bushings, Spacers, Compression Limiters, Inserts for Plastics, Shims, and Installation Equipment. Most heat-treating and finishing processes are performed in-house to ensure consistent quality. You benefit from a choice of over 30,000 standard products, no tooling or development costs, less variability between production lots, and responsive delivery. In addition to high quality products, SPIROL has Application Engineers throughout the world to assist you in your designs, supported by state-of-the-art manufacturing centers and worldwide stocking facilities to simplify the logistics of delivering your product.

SPIROL can be found on 4 continents within the following 12 countries:

Brazil, Canada, China, Czech Republic, England, France, Germany, Korea, Mexico, Poland, Spain, United States.

Application Engineering Support

Through partnering with companies in the design stage, **SPIROL** not only helps design the engineered component used for fastening and joining, but we also make the critical recommendations for the interface between our product and your assembly.
